1. — Python Essential
2. — Web Development
3. — MATLAB Onramp
4. — JavaScript

SUMMARY

I have expertise in MERN stack web development and graphic design. With a keen interest in technology and creative design, I bring a unique blend of skills and enthusiasm to any project or team.

PROJECTS

NETFLIX AND MICROSOFT – CLONE WEBSITE

- Created a replica of the Netflix streaming platform to showcase proficiency in front-end development and UI/UX design.
- Responsive and visually appealing user interface using HTML and Tailwind CSS for streamlined styling and layout with responsive.

CHEMICAL KINETIC HELPER – GUI COMPUTER APP

- Designed a graphical user interface (GUI) using Tkinter Python for solving chemical kinetics problems, showcasing proficiency in Python GUI development.
- Implemented functionalities for inputting reaction parameters, selecting reaction mechanisms, and displaying kinetic data using Python's scientific libraries.

OXZ THUNDER – MUSIC STREAMING WEB APPLICATION

- Developed a dynamic web application utilizing HTML, Tailwind CSS, and JavaScript, ensuring responsive and visually appealing user interfaces.
- Engineered a cutting-edge music streaming platform with multi-genre support, allowing users to seamlessly switch between different musical styles for an immersive listening experience.

EXPERIENCE

THE BANYAN TEE GRAPHIC DESIGNING INTERN

Jan 2024 – Mar 2024 | Bhopal, Madhya Pradesh

- Elevated brand recognition by creating captivating brand assets, including logos and marketing materials, resulting in a 25% increase in social media engagement.
- Collaborated with the marketing team to develop innovative design concepts and strategies for digital and print platforms, leading to a 30% increase in website traffic and a 20% boost in conversion rates.
